Offer

quality wines from Villány

"No good wine is produced without commitment", declared Zsigmond Teleki, without whose activity in the area of grapevine breeding European viticulture would now be poorer. Setting ourselves a special challenge, we have named our classic family of wines after Teleki.

Beyond their rootstock breeding activity, their legendary wine, Chateau Teleki, used to bring well-earned success and fine reputation for the Teleki family. The great premium category Bordeaux style red wines match similar wines of the best private producers.

"Kóvilla" (Stone Villa) is embraced by our vines on the southern slopes of Csillagvölgy. Our premium wine selection called Kóvilla Selection was inspired by the majestic air and unique beauty of the building.

The exclusive quality Csányi Selection product range of our Winery was created by the domestication of undoubtedly the best grapes grown in our best fields in Villány. These wines represent genuine value and offer a unique experience to lovers of wines.
