### Bilateral Meetings

- (13.00 pm - 18.00 pm)

#### Description

Kometa is a prominent performer in Hungary in pork processing, by the capacity of slaughtering 800 000 pigs annually and processing more than 20 000 tons of pork meat to produce a wide range of cooked and matured meat products.

In the heart of Europe, where the soil is fertile and the climate settled, Hungarian agriculture has always been a traditional strategic supplier role of Hungary. Today, Kometa delivers to more than 20 countries worldwide with outstanding quality and efficiency.

Kometa thoroughly chooses its raw material suppliers and aims to establish long-term partnerships with them. Its suppliers breed and fatten pigs on natural fodder, mainly exclusively in Hungary, under continuous veterinary control and in strict compliance with animal protection regulations.

Kometa ensures through its ISO 9001:2008, HACCP, IFS and BRC Certificate (grade "A") that its products grant the greatest food safety and the most complete enjoyment to consumers. We carefully combine tradition and experience with the best and most innovative technologies. We are already exporting to: European Union's countries, Countries of the Middle-East and of the Far East.

Our core products for export are:

- Original Hungarian salami
- Italian (cotto-type) hams made of deboned whole pork leg
- Owen roasted poultry hams made of turkey or chicken breasts
