Orosháza, Tuesday 6 January 2015

Dear Sirs!

Our company **OROS-Süti Kft.** has started food production in the 1970th. The frozen food production has been launched in 1980 by different dumpling items and in 1982 by the cake range.

First we introduced successfully a cheesecake family that was followed by chocolate, fruits and typical Hungarian cakes like Dobos, Somlói, etc.

Our frozen dessert items were getting very popular both on the local and export markets: yearly production capacity exceeded the 2000 T/year, frozen cakes have been produced more than 1 M pcs/year of which 80% has been delivered on export to CIS and Europe.

We supply on the home market both to retail segment (**METRO, TESCO, ALDI** etc.) as well to **HORECA** clients. Based on partners' demand we are developing new flavours for local market and export too including **PL activity**.

Our frozen cake range received the „**Excellent Hungarian Food**” price from the Hungarian Agricultural Ministry, as well won price on the foodfair **INTERNORGA** in Hamburg.

In our production we are focusing to utilise ingredients of natural origin.

Our policy is giving a special attention on the potential export growth so we will be glad to answer the questions and offer specific solutions for the interested partners.

Best regards

Zsolt Váncza
